12ga Skynet™ Drone Defense

Product Code: ALS12SKYMi-9

Product Specifications

Diameter	12ga
Length	Max 2.76 in (70 mm)
Projectile Count	1
Velocity	825 fps (251 m/s)
Effective Range	300 feet (91.4 m)
Weapon Compatibility	Cylinder or Improved Bore Rifled Choke Recommended

Projectile Specifications

Material	Zuerillium Lead Free Alloy & Steel Buckshot
Height	1.55 in (39.4 mm)
Diameter	0.72 in (18.3mm)
Weight	57 grams
Part No.	ALS12SKY-Mi9
Warranty	5 Years

DRONE DEFENSE

PRODUCT DESCRIPTION

The ALS12SKY-Mi9 is a 12 gauge anti-drone defense round designed to be rapidly deployed against commercially available drones being utilized for illegal purposes; i.e. illegal surveillance, contraband delivery. Upon firing through a 12ga rifled choke barrel, the five tethered segments separate with centrifugal force and create a five (5') foot wide 'capture net' to effectively trap the drone's propellers causing it to fail. The Mi9 adds four (4) internal steel buckshot rounds vs the Mi5 for added anti-drone capability.

SHIPPING INFO

UN Number UN0012

Proper Shipping Name Cartridges for Weapons, Inert Projectile

Hazard class 1.4S

Quantity per package 250

Total package weight 35 lbs.

Package type 4G Cardboard Box

Package Dimensions 13 in x 10.25 in x 4.75 in (330 mm x 260 mm x 121 mm)

WARNING: This round should only be used by individuals properly trained in the use of lethal munitions. Serious injury or death may occur if the product is misused or in rare or unexpected instances. Individuals should not engage persons with this round.
